INTELLIGENCE

## The leading intelligence resource that allows you to understand the NHS IT market more clearly

EHI intelligence is the premium market intelligence service from eHealth Insider that enables NHS trust organisations to better understand the NHS IT marketplace, who the key suppliers are and what products and systems other trusts are using. NHS trusts can also use EHI Intelligence as a tool to increase knowledge-sharing and drive innovation from NHS suppliers.

### What are the benefits of using EHI Intelligence?

- Feedback on supplier performance
- Contribute to the transparency agenda
- Find out what other trusts are doing and what systems they are using
- Contribute to a knowledge-sharing NHS
- Share best practice, lessons learned and mistakes made

## Endorsements

“Free access to an independent, accurate and authoritative database of what IT systems other trusts have installed.”

**Brian James, Chief Executive, The Rotherham NHS Foundation Trust**

“...an excellent resource enabling NHS trusts to collaborate and learn from each other and suppliers... a great catalyst for innovation and development in NHS IT solutions.”

**Dr Zafar Chaudry, CIO, Liverpool Women’s Foundation Trust and Alder Hey Children’s NHS Foundation Trust**

“...some of the much needed transparency we have all been waiting for... an important reference resource for NHS Informatics staff and the wider NHS community, allowing trusts to communicate and share knowledge, which is especially important with the current uncertainty surrounding strategic IT in the NHS.”

**Mark Norwood, Head of ICT, Doncaster and Bassetlaw Hospitals NHS Foundation Trust**
